AUSTIN RECREATION Givens District Park Master Plan Comment Card

Comments: LOVE IT!

*You did a great job. I really appreciate that the trees are protected and left on a forest. I like that soccer and football is added. The volleyball court with shaded seating is really, really important!*

*I like the walking trails that connect to the neighborhood in both directions.*

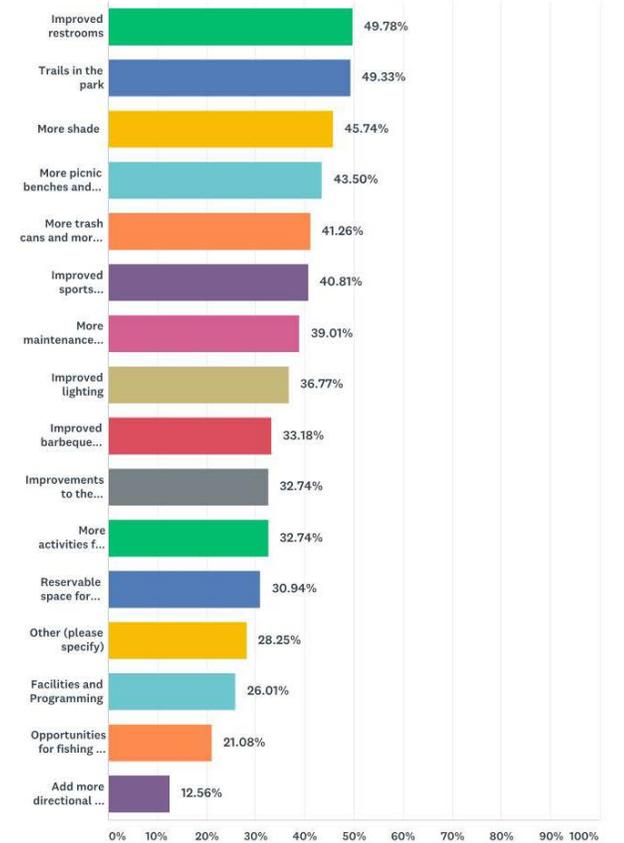

*I would be interested to help with the planting and landscaping of trees around the back stabilization.*

*Thank you for your work!*
